

8 July 1953

MEMORANDUM FOR: Chief of Administration, Deputy Director (Plans)

SUBJECT :

STATOTHR

25X1A

1. This is a man I mentioned to you earlier. He came in on [REDACTED] suggestion, but I have known him slightly since the 1930's. He is an extremely pleasant person, and I believe he wants to make a career of Government service. I know nothing about his legal ability but consider him of above-average intelligence. I have talked about him both to [REDACTED] who was his boss in the RDB, and [REDACTED] of OSI. Both think highly of him but say he has little real administrative experience. His forte is writing and analysis of information and summation. He is now pretty well versed in the technical language of the scientific field.

25X1A

25X1A

2. If you have any interest or any suggestions as to who might be interested go right ahead, as I am not interested for my Office at the present time. It may be that he would fit better with the requirements of the Deputy Director (Intelligence), but since I have discussed him with you I felt I would at least have you see the file.
